

*WALT* is an October 2005 cruiser stern narrowboat with a shell and fit out by the Liverpool Boat Co.

The seller is the third owner, the first two living on board for 8 and 2 years respectively. He is now selling as he has another narrowboat.

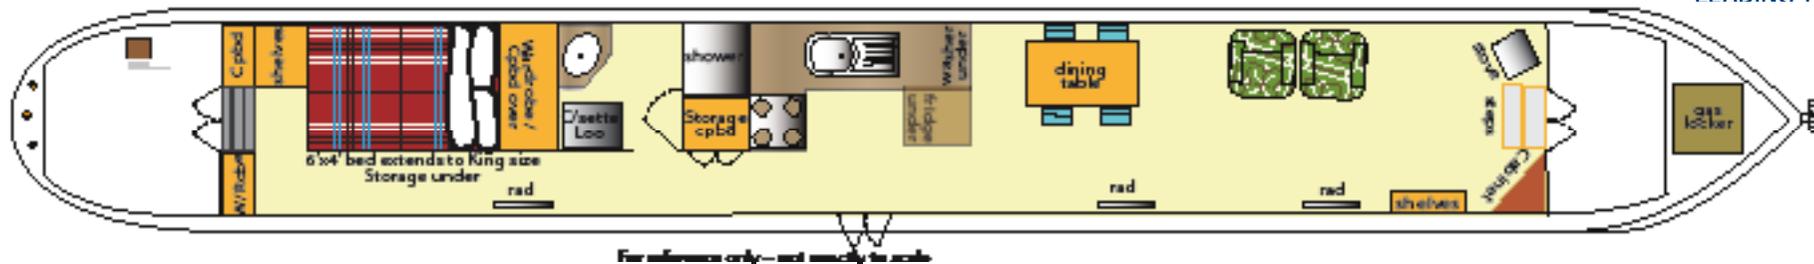

Starting at the bow, which houses the 2 13kg gas bottles, double wooden doors lead down steps into the large saloon - just shy of 18ft in length. Here there are two comfy chairs which each convert into single beds, a multi fuel stove and a corner unit with TV aerial socket and booster. The dining area hosts a drop leaf dining table and 4 dining chairs.

The galley follows and houses the washing machine, fridge, gas cooking appliances and various storage areas. There is also a side hatch in the galley on the starboard side.

A corridor leads aft from the galley, off which there is a large floor to ceiling storage cupboard, shower room and cassette toilet. The corridor then opens out into the main bedroom which has a permanent double berth with storage beneath it. The bed extends to Kingsize if required. There are two wardrobes built in, one with cupboards over, and a cupboard containing the various units for the boat's electrical system. This includes a 2kW inverter & charger. Steps lead up to the cruiser stern deck from here, which is a good sized sociable area ideal for cruising with a group of friends or family. Beneath the deck boards is the Isuzu 35hp diesel engine.
