

GO WITH THE FLOW

Go With The Flow is a lovely 57' go-anywhere trad stern narrowboat built in 2005 by TDJ Fabrication and fitted out by Delph Wharf. She was fully repainted in 2020 and remains in great condition, and had a hull survey in April 2025, followed by blacking and 4 new anodes.

The large cratch covered well deck features lockers either side, and the stainless steel 600L fresh water tank is housed below.

Steps lead down through glazed stable doors, into the saloon. There are two comfortable armchairs, a Bubble diesel stove, a large amount of storage (shelves and cupboards) and a 20" Sony TV.

A dinette follows, which converts to a spare double when needed, with storage under and shelves in the corridor.

The galley is next, featuring laminate worktops, a stainless steel sink, Nordemende oven, grill & 4 burner gas hob, 12v Shoreline fridge/freezer, 7kg Indesit washing machine, and plenty more cupboards, shelves and a drawer. A starboard side hatch and Houdini hatch over bring in additional light and fresh air.

Next is the off-corridor bathroom, with a Thetford Porta Potti toilet, shower over bath with curtain across, and a ceramic recessed wash basin with a cupboard under.

The bedroom follows, with a 6'2" x 4'0" cross bed double, cupboards over, and full hight double wardrobes, drawers and bed side cupboards on both sides of the bed.

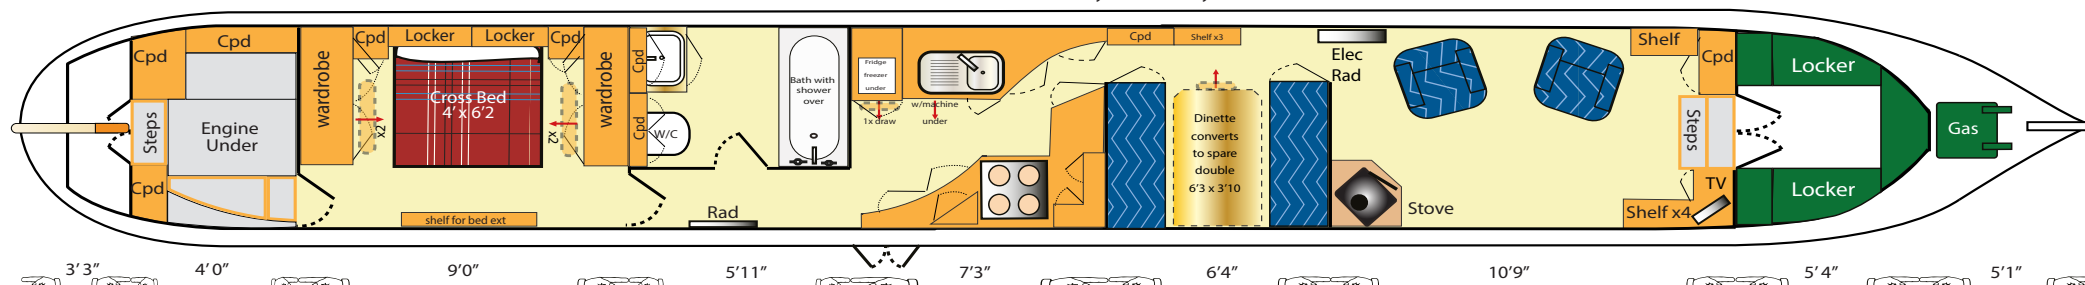

Following, the engine room houses the Beta Marine B43 engine beneath aft steps (last serviced in November 2024). Navigation is also aided by a Volvo bowthruster. These steps lead out onto the trad stern deck, via the large aft hatch, with a good condition pram cover over.

She is centrally heated via a back boiler on the Bubble stove, connected to 1 large radiator, as well as a smaller electric radiator in the saloon. Hot water is via the Bubble stove, engine, or immersion when on landline.

12v power is supplied by 6x 110ah domestics, with a separate starter and bowthruster supply, topped up by 670w of solar with a Rohs MPPT solar charge controller. 240v power is via a 2kw Powering inverter, or landline. A battery charger and galvanic isolator are also fitted.

Lighting on board is LED throughout.

If its time to quit the rat race, and just Go With The Flow, then this boat could be for you!

MAIN DETAILS

Style: Traditional • **Length:** 57' 0" • **Berths:** 2 + 2 • **Hull Builder:** TDJ Fabrication • **Fit out:** Delph Wharf
Steel thicknesses: 10 / 6 / 4 • **Year:** 2005 • **Reg No:** CRT 511665 • **CIN:** GB-SCB00170C405 • **Boat Safety:** June 2029

DIMENSIONS

Forward deck:	5' 0"
Well deck:	5' 4"
